

SOFTWARE DEVELOPER (M/F/D) FOR FULL-STACK-PROGRAMMING

Are you interested in the latest technologies, exciting projects and a great team that would like to welcome you into its midst? Perfectly. Then enrich our team!

At Zielpuls we concentrate on a very specific field of activity: technology-oriented management consulting. Our team forms the bridge between strategic consulting and technical service providers. Together we plan, develop and coordinate overall technological solutions. A substantial understanding of strategic issues, well-founded technical competence and an enjoyment of new, highly complex challenges make us unique in our field.

Tasks at the pulse of time

- You will develop and support prototypes and MVPs up to the product of on-demand mobility services, including field tests and roll-outs
- You work with the latest technologies like node.js/express, react native and redux, kubernetes, gitlab CI/CD

Our offer makes your heart beat faster

- Look forward to an permanent job in an industry in which a lot can be done in the future. This means for you: the best prospects from the very beginning!
- Tailor-made coaching programme for the first few months – because your personal support is important to us
- Wide range of training courses offered via the company' s internal "Technology and People Academy" – because you can continue your education with us in a targeted manner
- Take-over of internal roles possible (e.g. coaching, recruiting..) – if you want to get involved outside of your projects as well
- Very good payment and a comprehensive package of attractive company social benefits – because we appreciate your daily commitment.
- An open and friendly corporate culture with flat hierarchies and short distances – because this is the only way to implement your ideas quickly.
- Flexible, family-friendly working hours – so you can do your job with ease
- Numerous company events – so that we can grow even closer together as a team
- Free drinks and fresh organic fruit – how to get through the day healthily

Your profile brings us to our goal

- Successful studies with focus on informatics or business informatics or a comparable field of study
- You already have professional experience in software development and software architecture and are proficient in programming languages like Java and JavaScript
