

SOFTWARE ENGINEERING TECHNOLOGY PIONEER / CONSULTANT (ALL GENDERS)

Are you interested in the latest technologies, exciting projects and a great team that is happy to welcome you into its midst? Perfect. Then enrich our team!

At Zielpuls, we focus on a very specific field of activity: technology-oriented management consulting. As part of the Accenture Group, we increase the entrepreneurial performance of our clients and show them the way into the digital age. Our teams form the bridge between strategic consulting and technical service providers. Together, we plan, develop and coordinate complete technological solutions.

Tasks at the pulse of time

- You are part of a development team and implement together with experienced software developers in agile projects
- You develop frontend, backend or mobile applications
- You focus on code quality and ensure it by means of code reviews and extensive testing
- You take responsibility for identifying, analyzing and fixing bugs
- You document your progress and results

Our offer makes your heart beat faster

- You can look forward to a permanent job in a cross-industry technology consulting firm where you can make a lot of things happen. For you, this means the best prospects right from the start!
- Good remuneration and a comprehensive package of attractive company benefits – because we appreciate your daily commitment
- Tailor-made coaching program for the first few months – because your personal support is important to us
- Flexible working hours, home office and flexitime – so that you can pursue your job without worries
- State-of-the-art development hardware (e.g. MacBook Pro) and the latest technologies to try out and develop in our Innovation Lab (e.g. VR, AR, Machine Learning, 3D printing and Smart Home) – because we give your ideas the freedom they deserve
- Support for your personal and professional development through our in-house “Technology and People Academy”, individual coaching as well as tailored expert tracks and certifications (e.g. Scrum) – because you can continue your education with us in a targeted manner
- Numerous additional benefits, such as our company events (e.g. skiing, project training camp, get together) as well as free drinks and more – so that we grow even stronger together as a team
