

CONNECTED CAR AND DIGITALIZATION CONSULTANT (ALL GENDERS)

Are you interested in the latest technologies, exciting projects and a great team that would like to welcome you into its midst? Perfectly. Then enrich our team!

At Zielpuls we concentrate on a very specific field of activity: technology-oriented management consulting. Our team forms the bridge between strategic consulting and technical service providers. Together, we plan, develop and coordinate complete technological solutions. A substantial understanding of strategic issues, sound technical competence and an enjoyment of new, highly complex challenges make us unique in our field.

Tasks at the pulse of time

- You design and develop user-oriented solutions for innovative connected services – so that everyone can reach their destination safely
- You analyze and evaluate customer requirements in the Connected Car and Mobility Services environment – your ability to think outside the box helps you to do this
- You will take responsibility for managing and implementing measures – and of course you will involve the customer in the process
- You put processes to the test at the customer' s site and continuously optimize them – you have an eye for that
- Regardless of whether the questions are of a methodical or technical nature – you can combine them without any problems.

Our offer makes your heart beat faster

- You can look forward to a permanent job in an industry where a lot can be achieved in the future. For you, this means the best prospects right from the start!
- Tailor-made coaching program for the first few months – because your personal support is important to us
- Wide range of training courses offered by the company' s own "Technology and People Academy" – because you can continue your education with us in a targeted manner
- Possibility to take on internal roles (e.g. coaching, recruiting...) – if you also want to get involved outside your projects
- Good compensation and a comprehensive package of attractive company benefits – because we appreciate your daily commitment
- An open and friendly corporate culture with flat hierarchies and short lines of communication – because this is the only way your ideas can be implemented quickly
- Flexible, family-friendly working hours – so that you can pursue your job without worries
- Numerous company events – so that we grow together even more as a team
- Free drinks and fresh organic fruit – to keep you healthy throughout the day
