

JUNIOR TECHNOLOGY PIONEER/CONSULTANT (M/F/D)

Are you interested in the latest technologies, exciting projects and a great team that would like to welcome you into its midst? Perfectly. Then enrich our team!

At Zielpuls we concentrate on a very specific field of activity: technology-oriented management consulting. Our team forms the bridge between strategic consulting and technical service providers. Together, we plan, develop and coordinate complete technological solutions. A substantial understanding of strategic issues, sound technical competence and an enjoyment of new, highly complex challenges make us unique in our field.

Tasks at the pulse of time

- No matter if methodical or technical – for questions about technology you are the competent contact for our customers
- Within the scope of process management, you will put our customers' processes to the test and continuously optimize them
- You pave the way from the idea to the goals and the complete set of all requirements and changes of the customer
- You plan and control the systematic and efficient execution of test cases – with your help, the quality will be increased and ensured in the long term
- Of course, you coordinate with the individual departments during the development process – thanks to you, everything simply runs smoothly

Our offer makes your heart beat faster

- Look forward to a permanent job in an industry where a lot can be done in the future. For you this means: best perspectives from the very beginning!
- Tailor-made coaching program for the first months – because your personal support is important to us
- Wide range of training courses via the company's internal "Technik und Menschen Akademie" – because you can continue your training with us in a targeted manner
- Assumption of internal roles possible (e.g. coaching, recruiting...) – if you want to get involved outside of your projects
- Above-average remuneration and a comprehensive package of attractive company social benefits – because we appreciate your daily commitment
- An open and friendly corporate culture with flat hierarchies and short paths – because only then can your ideas be implemented quickly
- Flexible, family-friendly working hours – so that you can pursue your job without worries
- Numerous company events – so that we as a team can grow together even more
- Free drinks and fresh organic fruit – so you can get through the day healthy

Your profile brings us to our goal

- Successful studies with focus on computer science, mechanical engineering, electrical engineering, industrial engineering or a comparable field of study
- First experience in consulting or development is desirable
- Conceptual and analytical competence, coupled with a clear service mentality and a keen sense for the wishes of our customers
