

JUNIOR TECHNOLOGY PIONEER/CONSULTANT (M/F/D) SOFTWARE ENGINEERING

Are you interested in the latest technologies, exciting projects and a great team that would like to welcome you into its midst? Perfectly. Then enrich our team!

At Zielpuls we concentrate on a very specific field of activity: technology-oriented management consulting. Our team forms the bridge between strategic consulting and technical service providers. Together, we plan, develop and coordinate complete technological solutions. A substantial understanding of strategic issues, sound technical competence and an enjoyment of new, highly complex challenges make us unique in our field.

Tasks at the pulse of time

- No matter if it is about planning or implementing innovative software solutions across all architecture layers – you are our competent contact person for questions about this topic
- You develop system requirements – always taking into account the technical requirements of the customer and the specifics of the industry
- You advise our customers on methodological and technical issues – as a technology-oriented management consultancy, we rely entirely on your expertise
- Of course, you coordinate with the individual departments during the development process – thanks to you, everything simply runs smoothly

Our offer makes your heart beat faster

- Look forward to an permanent job in an industry in which a lot can be done in the future. This means for you: the best prospects from the very beginning!
- Tailor-made coaching programme for the first few months – because your personal support is important to us
- Wide range of training courses offered via the company' s internal "Technology and People Academy" – because you can continue your education with us in a targeted manner
- Take-over of internal roles possible (e.g. coaching, recruiting..) – if you want to get involved outside of your projects as well
- Above-average payment and a comprehensive package of attractive company social benefits – because we appreciate your daily commitment.
- An open and friendly corporate culture with flat hierarchies and short distances – because this is the only way to implement your ideas quickly.
- Flexible, family-friendly working hours – so you can do your job with ease
- Numerous company events – so that we can grow even closer together as a team
- Free drinks and fresh organic fruit – how to get through the day healthily
