

LEAD TECHNOLOGY PIONEER/ PROJECT MANAGER (M/F/D)

Are you interested in the latest technologies, exciting projects and a great team that would like to welcome you into its midst? Perfectly. Then enrich our team!

At Zielpuls we concentrate on a very specific field of activity: technology-oriented management consulting. Our team forms the bridge between strategic consulting and technical service providers. Together, we plan, develop and coordinate complete technological solutions. A substantial understanding of strategic issues, sound technical competence and an enjoyment of new, highly complex challenges make us unique in our field.

Tasks at the pulse of time

- When it comes to highly innovative topics and concepts, you are the competent contact person for our customers – thanks to you, everything simply runs smoothly
- You know what is going on and take over the project management and professional leadership of your project team
- You manage your project and successfully implement the developed measures with your team
- Your heart beats faster when you are able to deal with new technical challenges and work in a team with the latest technologies
- At the customer' s site, you put processes to the test and continuously optimize
No matter whether your questions are of a methodical or technical nature – you can easily link them
- You create and evaluate technical concepts – of course you coordinate closely with the customer
- You support us in project acquisition and offer preparation – your view beyond the horizon helps you

Our offer makes your heart beat faster

- Look forward to a permanent job in an industry where a lot can be done in the future. For you this means: best perspectives from the very beginning!
- Tailor-made coaching program for the first months – because your personal support is important to us
- Wide range of training courses via the company' s internal "Technik und Menschen Akademie" – because you can continue your training with us in a targeted manner
- Assumption of internal roles possible (e.g. coaching, recruiting...) – if you want to get involved outside of your projects
- Very good remuneration and a comprehensive package of attractive company social benefits – because we appreciate your daily commitment
- An open and friendly corporate culture with flat hierarchies and short paths – because only then can your ideas be implemented quickly
- Flexible, family-friendly working hours – so that you can pursue your job without worries
- Numerous company events – so that we as a team can grow together even more
- Free drinks and fresh organic fruit – so you can get through the day healthy
