

JUNIOR AUTOMOTIVE SECURITY CONSULTANT (ALL GENDERS)

Are you interested in the latest technologies, exciting projects and a great team that is happy to welcome you into its midst? Perfect. Then enrich our team!

At Zielpuls, we focus on a very specific field of activity: technology-oriented management consulting. Our team forms the bridge between strategic consulting and technical service providers. Together, we plan, develop and coordinate overall technological solutions. A substantial understanding of strategic issues, profound technical competence as well as fun with new highly complex challenges make us unique in our field.

Tasks at the pulse of time

- You are a competent contact person for our customers when it comes to highly innovative topics and concepts – thanks to you, everything just runs smoothly
- Your heart beats faster when you deal with new technical challenges (e.g. UNECE WP.29 and ISO/SAE 21434) and work in a team with the latest technologies.
- You put processes or even an entire cybersecurity management system (CSMS) to the test at the customer' s site and optimize them continuously
- You create and evaluate technical concepts with the help of threat and risk analyses – of course, you coordinate closely with the customer here
- When developing measures to minimize existing security risks, you will always be guided by the state of the art and weigh up the existing influencing variables

Our offer makes your heart beat faster

- You can look forward to a permanent job in an industry where a lot can be achieved in the future. For you, this means the best prospects right from the start!
- Tailor-made coaching program for the first few months – because your personal support is important to us
- Wide range of training courses offered by the company' s own "Technology and People Academy" – because you can continue your education with us in a targeted manner
- Possibility to take on internal roles (e.g. coaching, recruiting..) – if you also want to get involved outside of your projects
- Above-average compensation and a comprehensive package of attractive company benefits – because we appreciate your daily commitment
- An open and friendly corporate culture with flat hierarchies and short lines of communication – because this is the only way your ideas can be implemented quickly
- Flexible, family-friendly working hours – so that you can pursue your job without worries
- Numerous company events – so that we grow even closer together as a team
- Free drinks and fresh organic fruit – to keep you healthy throughout the day
